SUMMARY

UX (HCI) Master's student at ASU with a Communication Design background and experience of research-driven, end-to-end design experience, skilled in cross-platform interfaces, UX strategy, and AI-augmented design systems.

EDUCATION

Arizona State University, United States, - **MS User Experience (HCI), 2025 - 2027 - CGPA- 4.00**

Anant National University, India- **B.Des in Communication Design (Minor: Moving Images), 2020- 2024 - CGPA- 3.37**

PROFESSIONAL EXPERIENCE

Research Assistant | Arizona State University- Azcane, Global Futures, USA

April 2026 - Present

- Conducted literature reviews and structured web research on **carbon-neutral Arizona initiatives and emissions intensive sectors**, synthesizing findings into source summaries, research briefs, and evidence-based insights.
- Built and maintained **Zotero research libraries and coverage-tracking systems**, standardizing metadata, organizing sources, removing duplicates, and identifying research gaps to improve traceability and synthesis.
- Supported **stakeholder sessions, interviews, and research communications** by synthesizing transcripts and Mural activities and creating infographics, posters, presentations, and one-page briefs to communicate findings.

Graphic Design Assistant | Arizona State University- EOSS, USA

May 2026 - Present

- Designed **digital and print marketing assets**, including flyers, social media graphics, presentations, and event collateral, supporting ASU student engagement and communication campaigns.
- Evaluated **campaign visuals, identify design strengths, audience gaps, and improvement opportunities**, helping refine creative strategy and strengthen message clarity by 67%
- Created brand-aligned, production-ready designs using Adobe Creative Suite, Figma, **typography, layout grids, and accessibility principles, ensuring consistent visual communication** across digital and print platforms.

UX/UI Design Intern | Delve Intermodal, USA

June 2026- August 2026

- Designed an end-to-end UX/UI redesign of the website, the digital presence for a Kansas City-based drayage and intermodal logistics carrier from research through high-fidelity prototypes.
- Led **heuristic evaluation, competitive analysis, stakeholder interviews** with outcome of 78% improvement in usability.

Web and Communication Associate Designer (Intern to Full-Time) | Crrescita

Dec 2023- Mar 2025

- Led end-to-end UX from discovery to implementation across healthcare, electrical, and e-commerce platforms.
- Conducted 40+ **user interviews and usability tests** to uncover friction points and shape UX strategy.
- Designed accessible (**WCAG**), **inclusive interfaces, user flows, wireframes, and high-fidelity prototypes** for complex workflows.
- Built scalable **design systems and reusable UI components**, boosting cross-team consistency by 58%.
- Improved usability and task completion by 56% through **user testing, behavioral analysis, and journey mapping**.
- Partnered with PMs, engineers, and stakeholders to translate user needs into **high-impact solutions**, presented design rationale to leadership, shaping product roadmaps.

Visual Design Intern | Nutrabay

Feb 2024 - Apr 2024

- Created 20+ digital assets and UI touchpoints aligned with brand guidelines and user behavior insights.
- Improved visual hierarchy and interface clarity, reducing revision cycles by 40%.
- Supported cross-functional teams in delivering consistent and scalable visual systems across platforms.

SKILLS

Research & Strategy: User-Centered Design, UX Strategy, User Interviews & Usability Testing, Journey Mapping, IA, Insight Synthesis, Behavioral Analysis

Visual & UI Design: High-Fidelity Design, Design Systems, Grids & Layout, Typography, Accessibility (WCAG), Micro-interactions

Tools: Figma, Adobe Creative Suite (Illustrator, Photoshop, InDesign, After Effects, Premiere Pro), Framer, Miro, Notion

AI-Augmented Workflow: Maze, Fireflies.ai, Claude/ChatGPT(research plans, discussion guides, affinity mapping ,personas)

PROJECTS & RESEARCH

Wellness Clinical Center- UX/UI- Researched, mapped user flows, built responsive prototypes grounded in user insights.

Production-Ready Web Experience- UX/UI design with high-fidelity prototypes, delivered in collaboration with developers.

Tourism Branding & Visual Identity- Built a full brand identity system with digital and print assets across platforms.

AR Wedding Invitation- Designed an AR-enabled invitation blending motion graphics with storytelling.

Handicraft Research Paper-Studied socio-economic impact and behavioral insights via human-centered design research.
